PREMIER SUTTON TELLS DELE-
GATION THAT HE WILL
NOT CLOSE BARS
EARLIER

Edmonton, April 9—Premier Sutton
this morning gave a direct refusal
to the delegation from various
towns and cities of the province who
waited on him with the request that
all hotel bars in the province should
be closed at 7 p.m. instead of 10
p.m. for the period of the war.
The premier based his refusal on
the fact that it would not be in view
of the present law in view of the
fact that the people of the
province are to vote on the
prohibition question this summer. He
believes that no amendments or change
affecting the principle of the liquor
law should be made between now
and that date.

The delegation also waited on Ed-
ward Michener, the opposition leader,
who told them he did not think
that it would be advisable to advo-
cate any change at the present time.
The delegation included representa-
tives from Calgary, Edmonton, Med-
icine Hat, Camrose, High River, La-
combe, Wainwright, Didsbury, Leduc,
Vermilion, Vegreville and Lacombe.
The request was presented in the
form of a resolution, and speeches
were made by R. T. Telford, ex-M.L.A.
for Leduc, who was chairman of
the delegation; by Harold Riley, of
Calgary, and Hector Lang, of Medicine
Hat.

RAILWAY GUARANTEE
PLANS CRITICIZED

Edmonton, April 9—The debate on
the government proposal for a guar-
antee to all railways building in the
province was continued in the legis-
lature today. T. M. Tweedie, Cen-
tral Calgary, using the chief critic,
while Hon. C. W. Cross spoke in
behalf of the government.

Mr. Tweedie asserted that the pre-
mier was the friend of the farmers
at election time and a friend of the
corporations at every other time.
There was no doubt, he said, that
the railway needs of the province
had already been exceeded, and it
was time to call a halt. It was the
duty of the legislature, before plug-
ging into reckless expenditure, to look
to the future and not burden future
generations unnecessarily. He believed
the time had come when the govern-
ment should stop the free ride in railway
charter. Mr. Tweedie contended that the
C.N.R. guarantees to the extent of
\$1,477,470, out of a total issue of
\$7,370,000, had been unaccounted for,
and the only conclusion he could
reach was that McKenna & Mann
had hypnotized the board to the
Canadian Bank of Commerce for
advances and railway work was tied
up in the meantime until the debt
owing to the bank had been dis-
charged.

He concluded by moving an amend-
ment stating that the C.N.R. had
defaulted since 1912 in carrying out
its contracts to build the St. Paul
line, and that no attempt had been
made to remedy such default, not-
withstanding that the proceeds of
the bond sale had been lying in the
bank for the last two years; regret-
ting that the government had made
no provision in the resolution before
the house compelling the immediate
construction of the line; and adding
that as no provision had been shown

for the increase of the guarantee an
enquiry be made by a commission
for the purpose of ascertaining the
exact cost of railways already built
or now being built in the province.
Hon. C. W. Cross, replying, defend-
ed the government's policy of free
trade in railway charters. If chart-
ers could not be obtained in Alber-
ta, he said, all the promoters had
to do was to go to Ottawa. From
May, 1914, to March, 1915, the Mc-
Arthur roads had handled 22,543 ton
of freight for settlers in the north
country, and had thereby saved \$1-
000,000 for the settlers.
The same conditions would prevail
in regard to the St. Paul line, and
in less than a year the people
of that territory would save an equal
amount.

As far as the C.N.R. was concern-
ed, the government guaranteed to
cover the full cost of the roads, he
said, and even if the company de-
faulted and the lines were turned over
to the province they would con-
stitute an asset worth many times
more than the amount of the guar-
antee. Every line of completed guar-
anteed railway in Alberta, at the
present time, he said, was on a pay-
ing basis.

Other speakers of the afternoon
were T. Hudson, Wainwright, and
George Hodley, Okotoks, both mem-
bers of the opposition.
Edmonton, April 9—At the evening
session, a vote was taken on the
Tweedie amendment, which was de-
feated 30 to 17, and the government
resolution was adopted on a similar
division.
The resolution providing for a \$2-
000,000 loan to the Central Canada
"Iowa" company in connection with
the construction of the line from
McLellan, on the Dunvegan line, to
Peace River Crossing, was next taken
up and debated until adjournment.
This is a McArthur line.
Mr. Michener contended that the
fixed interest charges of the province
were already too high, and it was
a serious thing to authorize the ter-
ritory to borrow more money and
increase those charges. Mr. Michener
had not concluded at adjournment.

HOW THE GOVERNMENT BUYS
HORSES

The following is the W.A.P. re-
port of the public accounts commit-
tee at Ottawa which shows how the
horses are bought by the Domini-
on government.

A. B. Harvey, from Kings County
N.S., was the next witness called.
He stated that he had sold a horse
to the government for \$250. "It was
a good, decent horse, he stated, but
it had one fault, it was sprung on
the knees."
Witness stated that he had also
sold four horses to the government
at Kingston. The one for which he
received the highest price was a
mare which brought \$150.

"How old was she," asked Mr.
Rhodes.
"She was crawling along," re-
marked the witness.
"I should say so."
"Fifteen."
"Yes, in my judgment she would
be about 20 years old."
He stated that he had only known
the mare about ten minutes. He had
bought her for \$85.
"Did you try to find out how old
she was when you bought her?"
"No, I didn't want to know."
"When you sold her horse to the
government you knew what they
were for?"

"Oh, yes, the government was buying
and I was selling."
"You knew you were doing the
government?"
"They were buying and I was sell-
ing."

Another horse sold by the witness
had been in his possession about a
half hour.
"What sort of a horse was it?"
"It was spavined on both hind
legs."
"Was it also crawling along?"
"It was."
"What did you get for it?"
"A hundred and twenty dollars."
"Would you give him that for it?"
"No."
"Would you give \$100 for it?"
"No."
"It depends on who wanted it."
Another horse was purchased from
him for \$100.
"What kind of a horse was it?"
"It was spavined also," but on the
front legs. He thought it was
worth \$50.
"When you deliberately cheated the
government out of \$50?"
Several members of the committee
objected to this imputation.

"Didn't you think your conduct
was reprehensible?" asked Mr. Rhod-
des. "Reprehensible to say the least.
Knowing the age of horses required
and the condition of the horse, do
you not think that your conduct was
reprehensible."
"That is the kind of horses every
body was selling," retorted the wit-
ness.
Mr. Harvey then described the sys-
tem by which horses were disposed
of to the government buyers in
King's County. "When I got to
Berkwick," he said, "I didn't think
my horse would go, but I saw I
would have the last horse there."
The veterinary said "What do you
want for him?" I said "what can I
get?" The buyer said, "£150." I
said "you can have him," and I was
glad to get it."
"Did you make any representations

Alberta Men of Affairs

J. J. MURRAY

Manager J. J. Murray & Co., Edmonton, Alberta

as to age or ability?" asked A. K.
McLellan.
"None whatever. I took what was
offered me, and I was glad to get it.
Granted that imbeciles may have
been buying horses," said Mr. Rhod-
des, "we want to get at the truth
here and find out how far the coun-
try has been cheated."

THIS DECISION IS IMPORTANT
AS A PRECEDENT.

Edmonton, April 9—Mr. Justice
Walsh, in the Supreme Court, has
handed down a decision of the great-
est importance to the legal and busi-
ness men of the province, if not all
over western Canada.

The case in question was that of
company is a creditor of the Stra-
thcona Lumber Co., Ltd., and the
Adolph Lumber Co. It was brought
by John Walters, Ltd., to set aside
the chattel mortgage made by it to
the other defendant, the Adolph Lum-
ber company, to secure its claim of
\$6,500. The claim of the plaintiffs
was that this chattel mortgage is
null and void on the grounds that
it was taken when the Strathcona
Lumber Co., Ltd., was in insolvent
circumstances. The Adolph Lumber
company is a creditor of the Stra-
thcona Lumber Co., Ltd., as is also
the plaintiffs.

The case was of unusual impor-
tance, inasmuch as it lays down clear-
ly, it appears, for the first time in
the western provinces, the principles
of the law regarding chattel mor-
gages, and such encumbrances grant-
ed by a mortgagor when he is in
insolvent or nearly insolvent circum-
stances. It seems that heretofore there was no
clearly defined definition of the term
"insolvency" but Mr. Justice Walsh
clearly defines the word, and in ap-
plying the facts of the case to the
principles of the law as he found
them, the defence of the Adolph Lum-
ber company was sustained and the
action dismissed against both de-
fendants and as against the Adolph
Lumber company, with costs in its
favor.

RURAL TELEPHONES INCREASE
BUT CITIES DECREASE

A return brought down by the
telephone department in the provin-
cial house last week shows the fact
that the financial stringency, has had
on the number of telephone subscri-
bers in the province since June 30,
of last year. The number at Cal-
gary has been reduced from 7751 to
6225, at Wetaskiwin from 251 to
233, at Lethbridge from 1625 to 825,
and at Medicine Hat from 1154 to
883. The total number of exchange
subscribers has been reduced from
15,675 to 14,550. The only increase
has been in the number of rural sub-
scribers, from 7741 to 9172—indicat-
ing that on the whole the rural is
more prosperous than the urban part
of the province.

BOARD OF TRADE BANQUET AT MILLET

The second annual banquet of the
Millet Board of Trade was held on
Friday evening last, and proved a
most gratifying success, as the com-
modious Oddfellows' Hall was crowded
to capacity. The motto of the
board is "Millet Always at the
Front," and this idea was carried out
right through the banquet, as the
occasion was one of the finest ever
held in the village. The spread, served
by the genial manager of the
Arlington Hotel, was very tasty, and
the toast list was lengthy and well
handled by the toastmaster, Mr. T.
B. Smith.

The toast to the King was re-
sponded to by singing "The Maple
Leaf."
"The Dominion" was proposed by
Mayor Norris, of Leduc, who lucidly
referred to the strong unity between
Canada and the United States. It is
not natural resources but citizens
which make the nation, and it is the
duty of every citizen to do all in his
power to assist in developing the
country as well as the betterment of
his fellow-citizens.

Dr. Baker, in replying to the toast,
referred to the growth of the
Dominion during the last two centuries.
One hundred years ago Montreal had
a population of 5,000 and Toronto
which today has 50,000, was no larger
than Wetaskiwin. We should not be
satisfied with what we have now
but should endeavor to improve the
future. There should be total dis-
armament after the war, and we
should send the best men to parlia-
ment to look after the best interests
of the country. Honesty in politics
was desired, as grafting was deterio-
rating and weakening.

Telegrams of regret were read from
H. J. Montgomery, M.P.P. and S.
B. Tobin, M.P.P., who were pre-
vented from attending owing to parlia-
mentary duties.

The toast of "Our Province" was
well handled by O. H. Hankin and
E. H. Keith. The former, in propos-
ing the toast, referred to the climate
and natural resources, while the lat-
ter dwelt on the general excellence
of the province. As the country gets
older, and the resources are better
developed, it will indeed be the ban-
ner province of our fair Dominion.
He also referred to the grain grow-
ing in the south, the mixed farming
in the central portion of the province,
and to the natural resources,
which are yet to be explored. Al-
berta has the largest area of raw
material in all Canada, and has also
the largest coal reserve. The large
lumber areas are not yet explored,
and when utilized will place this
industry in the front rank. Mr. Keith
concluded by referring to the war
and the sacrifice the people of the
province have made, and are prepared
to make, in the defence of the
Empire.

"Our Town" was proposed by T.
Hull, who enlivened the Board of

Northwest Metal Company

Manufacturers of

Corrugated Road Culverts

These Culverts are made from Key-
stone Copper Bearing Sheets.

Corrugated Well Curbings

made from 20 gauge galvanized
Sheets.

Manufacturing and Distributing
SEDEGWICK, ALBERTA.

Trade for the enthusiasm and energy
displayed. The work of the board
was now being felt, and this good
work should be encouraged and sup-
ported by all. In responding to this
toast, G. Wolf became reminiscent
most gave an interesting account of
the growth of the village, from three
buildings, when he arrived fourteen
years ago, until today Millet is one
of the best places in the west for
its size. "Millet is always at the
Front."

P. T. Fisher, secretary of the Ed-
monton Board of Trade, proposed
the toast to the Millet Board of
Trade. He said he would not offer
any advice as he had made a note of
points to take back to Edmonton
with him. In his 26 years experience
he had never attended a board of
trade banquet where the ladies were
present and he thought the example
set by the Millet board might pro-
bably be followed by the other
boards of the province. The Millet
board was doing good work by all
getting together and working for
the development of the surrounding
country. Do not worry about the
growth of the village. Increase the
tributary territory and more busi-
ness will be done. Do not waste
energy in trying to get industries,
when conditions warrant they will
come. He proposed the toast to the
"Liveliest board in Alberta."

A. P. Mitchell, president of the
Board of Trade, in responding to the
toast, welcomed those present, and
pointed out that the membership of
the board was eighty per cent farm-
ers. If it had not been for the
action of the C.P.R. there might not
have been a board of trade, as the
organization was formed a couple
of years ago to protest against the
removal of the station agent. The
demands of the board were granted.
As an indication of the growth of
the community, approximately 68
cars of products were shipped out of
the district during the past year as
compared with 34 the previous year.
He referred to the exhibit at the
Edmonton Industrial Building, and
also to the other medal which was
won last year at the Edmonton Ex-
hibition for having the second best
exhibit of grains and grasses in com-
petition with the entire province.
This year the board was going after
the gold medal. In concluding, Mr.
Mitchell referred to the large amount
of pure bred stock which was coming
into the district, which he thought
was partly through the united ef-
forts of the Board of Trade.

The names of P. Reop and J.
Plynon were accompanied with
"Agriculture" and they both referred
to the pure bred stock industry in
the district, and the great possi-
bility the district offered for mixed
farming.

"Old Times" was left in the hands
of J. W. Wet and T. Alkxas, who
referred to the experiences in the
village and district, and to the growth
made in recent years.

C. Scharf proposed the toast of
"Our Schools" which was responded
to by Mr. Brooke. They both de-
livered good addresses.

C. Gray and J. I. Bonham handed
the toast to "Our Cousins" in ap-
propriate addresses.

E. Farling cannily proposed the
toast to the "Visitors" which was
responded to by P. J. Mullen and
Mr. Sharon, both of Edmonton.

W. C. Young proposed the toast
of "The Press" which was replied to
by V.C. French of the Wetaskiwin
Times.

G. Darling and E. Gregory looked
after the interests of "The Ladies"
in master style.

Interpreting the lengthy toast
list were excellent musical numbers
by Miss Dais, Alkxas, Miss M. Tay-
lor, and a duet by Miss Taylor and
Mr. H. Blades.

The singing of God Save the King
brought a most enjoyable banquet to
a close.

W.C.T.U. NOTES

On April 7 at their regular meet-
ing, Rev. C. E. A. Pocock addressed
the ladies of the W.C.T.U. on the
subject of Narcotics. The ladies were
urged to have a text book intro-
duced into the Public school program,
dealing with the dangers of the
cigarette habit on the human body.
Mr. Pocock's talk and kindly sug-
gestions were much appreciated by
all present.

The regular meeting was followed
by a business meeting, the question
of long hours pay by the delivery
boys on Saturday evenings and other
matters were discussed. All the
ladies signified by a unanimous vote
their willingness to do their share
in chasing so that there need be no de-
livering after 9 p.m. on the nights
mentioned. A thorough canvass will
be made to ascertain the public op-
inion on this question.

The second meeting for the month
of April will be withdrawn for this
month, owing to the series of White
Ribbon Teas which are in progress.
The W.W.C.T.U. and the W.C.T.U.
are seriously considering the ques-
tion of a rest room.

The funeral of the late Jas. S.
Robertson took place on Sunday af-
ternoon, and was largely attended.
Wetaskiwin Lodge No. 15, O.R.A.A.
P. & A.M., had charge of the ser-
vice, and the brethren attended in a
body. The members of the I.O.O.F.
also marched to the graveside.
Moore's Undertaking Parlors con-
ducted the funeral and the remains
were laid to rest in the Wetaskiwin
cemetery.

Here is your opportunity to increase your farm holdings by getting adjoining lands, or secure your friends as neighbors. For literature and particulars apply to B. A. CAMERON, Gen'l Supt. of Land Dept. of Natural Resources, C.P.R. Calgary.

SEDGWICK ELEVATOR BURNS WITH \$8,000 LOSS

Sedgewick, April 10—A serious fire took place here this morning when the Alberta Farmers' Co-operative elevator was burned to the ground. While loading a car of grain a box at the top of the elevator became heated and efforts were being made to cool it off, and as it was a long way to carry the water to the top of the building, it had gained headway and some burning particles of wood dropped down the elevator shaft which started a fire below. A few minutes after the alarm was sounded, but it was seen at once that the elevator was doomed and their efforts were directed towards preventing the flames from spreading to the Alberta Grain Company's elevator on the one side and the Imperial Oil company's tanks and warehouses on the other. A fire hose northwest wind was blowing at the time which blew the flames from these buildings and the fire spread to the other side of the elevator. The elevator was built by the Farmers' Co-operative Elevator Co. of Sedgewick, Ltd., in the summer of 1912, at a cost of about \$8,000 and about a year ago was taken over by the Alberta Farmers' Co-operative Elevator company. It had a capacity of 40,000 bushels, and contained about 15,000 bushels at the time of the fire.

One fire watted at this time of the year, when the first warm days of the early thaws bring the insects out of their winter slumbers, means 12,000,000,000 less flies later in the year.

YOUNG MEN WANTED TO ROOM and Board—Cattell, 21 Lansdowne St. 34-10.

80 ACRES LAND FOR SALE—mile west of city, suitable for market garden and poultry, or close in country home. J. W. Bailey, Phone 1003. 31-10.

MATERNITY HOME. Having opened a maternity home at 202 Lorne St. B. I. am prepared to give good service and will be pleased to forward information. Charges reasonable. Mrs. F. L. Langston. 7-4 Phone 254.

Dr. Price's CREAM BAKING POWDER

Made from cream of tartar, derived from grapes, the most delicious and wholesome of all fruit acids.

Its superiority is unquestioned. Its fame world-wide. Its use a protection and a guarantee against alum food.

If you wish to avoid a danger to your food READ THE LABEL and decline to buy or use any baking powder that is not plainly designated as a cream of tartar powder.

KITCHENER CALLS ON CANADA FOR SECOND FORCE

Ottawa, April 12—Lord Kitchener, has called on Canada for a second expeditionary force. The news was given in parliament Saturday night by Premier Sir Robert Borden, who said that the call had been expected for some time. Three months ago, said the premier, Lord Kitchener was informed that the force was ready in Canada to board ships and sail for France. Premier Borden stated that since that time the war office has been kept fully informed on its training and had from time to time made suggestions which have been followed with absolute precision by the Canadian authorities. Now that the summons has come the second expeditionary force would go forward at an unannounced date in the future to join the first expeditionary campaign force now at the front. The Canadian second expeditionary force had not been summoned sooner "for reasons which concerned themselves to the head war office and reasons which are generally recognized," said the prime minister.

SHEEP HUSBANDRY

Under the title of "The Great Neglect in Sheep Husbandry," which constitutes Pamphlet No. 9 of the sheep and goat division of the Dominion department of agriculture, Messrs. T. Reg. Arkell and Norman Standish, two well recognized authorities explain the necessity for the early castration of ram lambs intended for slaughter and the value of docking in the maintenance of health. They consider that both of these operations are beneficial and cannot see that, while they are practiced on other animals, there should be any hesitancy in performing them on sheep. Ram lambs treated develop in size and command a better price in the market, while female lambs being docked escape disease and insect pests by reason of irregular cleanliness. Illustration are given of the methods employed and advice furnished of the desirable age and the advantages that accrue. Farmers would be service their own interest by referring to the Pamphlet, one Branch, Department of Agriculture, Ottawa for the pamphlet.

TO SECURE 1,000,000 MORE RECRUITS.

London, April 10—A whirlwind campaign in recruiting to win 1,000,000 British volunteers within the next three days will be opened tomorrow.

Was Troubled With Nervous Prostration.

Many people although they know of the symptoms of nervous prostration, are a feeling of fright when in crowded places, a dread of being alone, fear of being in a confined place, fear of society, a dread of things falling from above, fright at traveling on railroad trains, and disturbed and restless, refreshing sleep, often troubled with dreams.

Mrs. George Lee, Victoria, British Columbia, writes: "I am writing to tell you of the experience I have had with Milburn's Heart and Nerve Pills. I was so nervous I could not do my own work. I did not want to see any one, or would I go any place. My nerves were bad for three years, and my heart was so bad it would give out in that time. I took three boxes of your pills, and I never was better than I am now. I weigh 20 pounds more than I ever did." Milburn's Heart and Nerve Pills are 50c per box, 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto.

FOR SALE BY H. L. HIGGS.

HEADS LOW

The mortality of the fighting in France is far greater than it has ever been in previous wars. In some casualty lists the killed are more than half as numerous as the wounded. This is accounted for by some on the ground that the men in the trenches with their heads exposed, and it is said that the great majority of wounds are in the head. A device has been found to overcome this. By putting a small piece of looking glass on the back of the barrel of the gun, at an angle of forty-five degrees to the barrel, and putting a little dot in the middle of this piece of glass, it becomes possible to hold it at arms length over the head and shoot over the parapet without exposing any part of the body but the hands. The person who is about to fire looks up at the looking glass over his head and gets the image of the German at whom he is firing in the glass. Then he moves the muzzle of the rifle just a trifle till he sees the forefinger of his rifle covering the head he is aiming at, and then pulls the trigger. In this way he does not expose himself to any danger, and yet can make a very accurate shot at the enemy while the work is at close quarters. This might seem an impossible position on which to take anything but a very shaky aim. But it is said that the work is so effectively done the trenches are only twenty-five to a hundred yards apart. If it can be used it is a simple life-saving device.

RETURNING TO THE LAND IN ALBERTA

Alexander Norquay, Dominion land agent at Edmonton, reports that there is a decided lack to the land movement in that district. The Edmonton land office is crowded every day with land seekers and men making entry for homesteads. A good number there is always a goodly percentage of men who have been living in the cities and towns during the good times that prevailed all through the west for the past ten or twelve years and who, owing to the financial depression, have decided to go on the land. Reports from the Prairie, Ground and Forest River land offices also report a rush of land hunters this spring. The publicity branch of the Alberta department of agriculture is making an effort at the present time to still further increase this year's grain production. There are a large number of persons in the province who own farm land which has not been cropped during previous seasons, but who have not the necessary capital to seed it this year; while on the other hand there are persons who have a small amount of capital which they are willing to invest in farming operations. The department is trying to bring these two classes together, so that the land can be worked on shares, and is succeeding to a large extent. From the correspondence that has been received up to the present time, it is hoped thousands of acres which otherwise would be idle will be seeded this year.

The department has just issued a book entitled "Successful Farmers in Alberta," containing bona-fide statements and affidavits of farmers who have made good in Alberta after a small beginning. One of them is worth repeating. C. H. Degeur, in a letter dated January 25th last, says he came to Wetaskiwin from Orillia, Ontario, "with a few dirty clothes and a pair of willing hands." He lost the clothes and could not find them for 13 months. He worked for the C.P.R. for nearly two years and then went into farming. Now he has three quarter sections near Camrose with plenty of buildings, all kinds of machinery, 10 horses, 55 head of cattle, 15 hogs, some poultry, etc. all of them paid for, together with 4,000 bushels of grain which he raised last year. He would not sell his land for \$20 per acre—Manitoba Free Press.

The Experienced Driver

is the one who knows and values good harness. The driver who knows this city know and value our harness because they have tested it in the light of practical experience and long use and that they find it wears and stands up under the hardest conditions. Besides that, it has the smart and natty look you desire.

Space will not allow to mention everything that we have to offer, so we therefore ask you to come and investigate and we feel sure that we will be able to convince you that we are doing the right thing.

Yours respectfully,

THE BEEHIVE STORE

East Railway Street, Wetaskiwin

Don't Allow Your Bowels To Become Constipated.

If the truth was only known you would find that over one half of the ill life is caused by allowing the bowels to get into a constipated condition.

When the bowels become constipated the stomach gets out of order, the liver does not work properly, and then follows the violent risk headaches, the torments of the stomach, belching of wind, heartburn, water brash, biliousness, and a general feeling that you do not care to do anything.

Keep your bowels regular by using Milburn's Lax-Liver Pills. They will clear away all the effects matter which collects in the system and make you think that "life is worth living."

Mrs. Hans McKittrick, Wainfeld, Que., writes: "For several years I was troubled with sour stomach and biliousness and did not get relief until I used Milburn's Lax-Liver Pills. I had only taken them two weeks when my trouble was quite gone, and I will recommend them to all suffering as I."

Milburn's Lax-Liver Pills are 25c per box, 5 trials for \$1.00, at all drug stores or dealers, or will be mailed on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

BUYING AT HOME

To the Editor of The Times:

That was an interesting editorial which appeared in your paper a few weeks ago about refusing advertising contracts with Mail Order houses. Incidentally it brought up the whole question of where we should go for buying, and there are few questions of greater local interest than this. Most individuals ponder this question anew almost every time they make a purchase, and the harder the times the more important it becomes. There are few who do their buying in Wetaskiwin, almost as a matter of course, others do so from a sense of duty, and still others from a sense of pride. The lady, for instance, who buys her dresses in the local stores often affects quite an air of scorn toward those who thumb their catalogues and who want to be seen buying at Eaton money order. An extensive purchase in town is apt to be pretty widely known, but the Eaton style and Simpson coats which walk our streets go quite unheralded. On the other hand there are some ladies who assert that local goods are consistently one notch below the eastern styles as well as being up to date in price, and they are willing to incur the odium of sending away for the sake of the supposed advantage in prices and the indescribable satisfaction of being smart and stylish. But being a mere man I must make haste to get on more familiar ground.

I am particularly interested in the phase of the problem which relates to the farmers, and this is, after all the phase of paramount importance. For in spite of all that has been said against it an enormous amount of the farmers' business, and especially the cash business, goes abroad. The local merchants do not get as much of this good business as they deserve. There is many a farmer in the Wetaskiwin district who has been turned over more than once over the rough palms by the merchants when he would have been given about shift by the Mail Order houses, and even the local banks had become distinctly hostile. The local merchants are of the greatest help in the development of a country, and they do precisely what the banks are so loudly denigrated for not doing, that is, they adapt themselves to the changing conditions of the community. The trouble is that the adapting has to be done mostly to the disadvantage of the merchant. He gives the credit but he does not get the cash. Why is this? The question is many sided and too much involved to discuss fully in any one article. But it might be of interest to examine briefly one or two of the methods which have been adopted to secure this good business, and to suggest some probable reasons why these methods have so largely failed. In the first place, we have the method suggested in the editorial referred to, viz: that of suppressing Mail Order House advertising. It is generally known that this is the policy of local papers—a policy determined largely by the attitude of the merchants. It is very doubtful if this is a wise policy. To the extent that it involves a suppression of information of general interest it is scarcely legitimate. It is no part of the business of a newspaper to keep the highest praise for their clever work in the dark on any subject. And just because it is the worst possible psychology it is the most vulnerable to a newspaper. What the farmer thinks he needs is a landing platform and an elevator, and he has found from his experience

that when he has no need for these the home market does not avail him much. The argument has something in it and it makes a certain appeal, but it should not be very much relied upon. When harped upon "too much" it merely indicates a weakness in the position of the merchants. I might also refer to the attempt to make it an unpopular thing to send money away. As indicated above, this may have an effect on a few town dwellers, but it has very little influence on the farmer. He is too essentially independent in his habits of thought to be much influenced by this.

The whole question is involved in difficulties. The local merchant is in conflict with the movement toward greater capitalization in business which is so characteristic of our day. The farmer should revise his conception on any other basis than that of giving good value. But it must be remembered that he gives good value other than the goods that he sells—he gives value in credit, in favors, in barter, and in the general advantages of trading at home. Besides, he is in a transition state just now; boom days are over, rents are coming down and the merchant is getting better value in goods all the time. There is a much exaggerated opinion abroad as to what is gained in prices at present by sending money away. The local merchant's figures which are now out of date, and give the merchant a chance. And here the merchant stands to gain from an open comparison of prices through the advertising medium. Let the bid for business be based not on duty or on sentiment but on the solid business basis of the best possible service for the charge that is made.

OBSERVER

SUBSTITUTE FOR

GASOLINE IS FOUND

BY AN EASTERN MAN

Ottawa, April 11—After a decade of experimenting a Hull, Quebec, ex-scientist, claims he has found a substitute for gasoline and at a cost below several officials of the public works department on Saturday, two tablespoons of the mixture mixed with two quarts of water, proved sufficient to run a 22 horse power engine for an hour and a half without stoppage. The discoverer, who is Gideon Charbonneau, of Hull, claims he will be able to manufacture the liquid, which he calls "charcoal," in any quantity at four cents a gallon. The liquid does not give off any smoke, and the inventor asserts it will revolutionize the automobile and other industries.

The ladies of Bawlf presented a one-act play depicting a meeting of the society of Moberly Crossing. The press notices had called that 19 local stars would participate and the play more than lived up to the anticipation. Tea was served, ballet compared and discussed, reputations made and unmade with a calm that showed that the present day suffrage had nothing on our grandmothers. The costumes were particularly effective and the ladies deserve the highest praise for their clever work. In addition an excellent program of vocal and instrumental music was presented by the ladies. The proceeds amounted to something over \$340.

DECLINE SUBSTITUTES

LONE RIDGE NOTES

The Basket social and dance held in the Finland Hall on the 5th of April was well attended and all had a most enjoyable time.

Mr. O. G. Olson has stopped sawing for a few days while the farmers are busy seeding.

We regret to learn that Mr. and Mrs. Leslie Oliver has left our neighborhood.

Harry Pacey was here for a few days last week.

General News

Night may find you tired out, but you have made the world a better place in which to live if you have faithfully performed your daily tasks.

Bruce Johnstone, at Hardisty, was fined \$25 and costs for cruelty to animals, he having ridden his horse, while intoxicated, from Rosyth, to Hardisty in about ten minutes.

Calgary, April 6—Geo. Lane, well known Alberta farmer and stock raiser, yesterday began the preliminary work on the buying of 15,000 bushels of seed grain in 7,000 acres of land at his farm at Nanaka, Bas and Champlin, he needs seed for his largest crop in his experience. Within a few weeks, using 120 horses, 50 drills and barrows, and 60 drivers and assistants, he will be sowing the ground 2400 acres of wheat, 3500 acres of oats, 1400 acres of barley and 300 acres of rye.

No use getting that fishing tackle out until May 15 for the pike and pickerel season does not open until that date. From April 1 to May 15 these fish are protected as this is the season of their spawning period. The trout and grayling season will not open until July 1. Fisheries Inspector Hord has been active this spring patrolling the rivers and has taken steps to have the foreigners warned that infractions of the regulations will be dealt with severely.

An exchange says: "A merchant in neighboring town states that he is advertising this far cost him 54 cents for every \$100 worth of goods sold. He used half a page of his local paper each week for his business announcement, and says that as much as people read newspapers he will continue to advertise. He is a man possessed of a good head. Just as soon as merchants begin to look upon advertising as a branch of the business which requires as much care as any part of it, then will advertising pay. Honesty, force, originality and persistence in advertising makes a paying investment."

At a recent meeting of the "Safety First" committee, a locomotive engineer referred to the carelessness of the public in crossing directly in front of approaching trains at public crossings. In many cases after they have passed over the crossing, they will stand and watch the train pass, indicating that they are in no special hurry, but that their eyes are to be crossed over ahead of the train. Why they do this is not known. It is a habit which is the last thing with its loss of life or serious injury. Railways wish to guard against this dangerous habit, and urge the public to consider the fact that the wait of a few minutes for a train to pass, is time well spent.

An official of the Dominion department of agriculture recently stated that it was the intention to strictly enforce the act regarding the branding of dairy butter in blocks, squares or prints wrapped in parchment paper, must have "Dairy Butter" clearly marked on the package or be liable to a fine. Dairy butter is defined as butter manufactured in a place where the milk or cream of less than fifty cows is manufactured into butter. The underlying principle is protection to the consumer, the honest manufacturer and the honest trader. A person cannot sell butter, moulded into prints, blocks or squares or pats that are not of the full net weight of one quarter pound, one half pound or one two pounds. But there is nothing to prevent, it should be pointed out, the sale by farmers of butter in rolls or lumps of indiscriminate weight.

Auction Sale

OF FURNITURE, HORSES, HOUSEHOLD GOODS, ETC.

The undersigned Auctioneer has received instructions to sell by Public Auction at Owen's Corner, Wetaskiwin, on

Who's Who and Why

MR. E. C. D. CREAM-CAN, Mortgage Lifter and Bank Account Builder

His Advice to Farmers:

DON'T put all your eggs in the grain basket. Keep good cows. Sell your cream. Have cash coming in all the time. Write The EDMONTON CITY DAIRY, LIMITED and ask them to tell you just how I'll help you make good money, day after day, month after month and year after year, in spite of hail and frost and storm.

WRITE TO-DAY.

R. W. FARMER, Wetaskiwin

Garden Tools

Reduce living expenses by making a good garden. Good tools are necessary to make gardening successful. We have them at the following prices:

MALLEABLE RAKES ... 40c.	CHILD'S OR LADIES' SET, includes spade, hoe, rake 75c.
STEEL RAKES, 14 inch. 85c.	GARDEN TROWELS, 15c.
LAWN RAKES, steel wire 60c.	GARDEN WHEELBARROWS, \$3.50
GARDEN HOES, shank. 60c.	DIGGING FORKS, \$1.00 - \$1.50
SPADES and SHOVELS \$1.00*	SPRINKLERS, 35c to 75c.
GARDEN HOES, solid socket 65c.	

A little paint adds much to the appearance of the home. Try Stephens.

Geo. D. Wallace

Lumber...Machinery

Why go away from home for your Lumber when we can give you better prices right at your door. We want your trade and will not be outdone.

Agents for the celebrated John Deere Plow Co.'s Implements, Empress Cream Separators and "Sta-Rite" Gasoline Engine.

Give us a call.

Fullerton-Fawcett Lumber Co

Bauer Block, Wetaskiwin

A FEW POINTERS

When you buy a CREAM SEPARATOR, do not overlook the main features.

- First—The reputation of the make.
- Second—The size that you require.
- Third—That the machine will do as guaranteed.

In buying a DeLaval, you get everything that you require, because, it has about forty year's' test, and therefore stands in a class by itself as the only machine on the market today that will come up to all the claims that are extended in its behalf. Any SEPARATOR will skim milk to some degree, but the great test is in the water when your cows have been milking for several months and the buildings are cold. That is the time when you require a machine that will give you all the cream.

Another thing to remember when buying a Cream Separator is—Can I Get Repairs When I Want Them?

By getting a DeLaval you can always be assured of the above because you will always find an agent in your vicinity that has a stock on hand.

T&J & A.P. are the agents in Wetaskiwin.

Do not delay but go now and let them show you more fully the several points that are of interest to you in Cream Separators.

T&J & A.P.

ARE ALSO IN THE

Insurance, Loans and Real Estate Business

List your property with them and satisfaction will be assured. Their office is on the corner of EAST RAILWAY AND PEARCE STREET.

A total area of 350,000 acres was taken up in homesteads in the Peace River and Grande Prairie country during last year. This is equal to 15 townships. The total number of the homestead entries made through the Peace River agency in 1914 was 1,380 and through the Grande Prairie agency, 913.

December, January and February,
there was practically no frost during
March and exceptional results were
obtained. A total of 2,139 eggs were
laid during the month and 380 eggs
more than the total for the three
former months. Sixty-four hens laid
20 or more eggs during the month,
Hen No. 7,386, pen 3, holds the in-
dividual record with 29 eggs. Hen
No. 8,473, pen 14, made a record by
26 eggs in 26 consecutive days. Pens
1, 5, 6, 7, 9, 10, 12, 13, 14, 19 and
20 contained hens laid from
24 to 25 eggs each. The tie for
first place has been broken and pen
No. 5 leads with 327, followed by
pen 19 with a total of 210. Average
eggs per hen per month 17.82. Total
average to date, 32.07 eggs. The
highest individual record for the
winter months is 74 eggs, laid by
hen No. 8,459, pen 5. The best high-
est is 67 eggs laid by each of the
following: Hen No. 57 in pen 7;
No. 39,538 in pen 16; No. 9,756 in pen
19, and 8,456 in pen 20. Five hens
became broody during the month, 2
in pen 9 and three in pen 10.

A HUNDRED MILLION

To the Editor:

A hundred million dollars is too
much for the mind to grasp and yet
that is what the people of Canada
paid for intoxicating liquors in 1914.
A hundred million dollars would give
every family, rich and poor, in Can-
ada, five hundred dollars. Politicians
have spent months of time and thou-
sands of dollars squabbling over a
third of that sum to build a navy
to defend our country. A hundred
million, why, that would probably
finance Canada's share in the great
war. We talk about being hard up.
Money is being borrowed in large
sums to develop our resources and
the national debt keeps piling up,
and the money spent in drink would
have all that and leave a balance to
pay our debts. And that immense
sum is spent for what? A liquor
journal calls a "extravagance
and a luxury."

But a hundred million is only one
half of the cost of drink. Wise men
who have made a study of finance
tell us that every dollar spent in
drink causes a dollar's worth of
loss and waste and damage to
life and property.

So the cost of the liquor traffic in
Canada in 1914 was nearly two hun-
dred million. This immense drain
on the finances of the country accounts
for so good many things that are
hard to understand.

What does the country get from
the expenditure of that immense sum
of money and the degradation and
ruin of thousands every year? The
aggregate Dominion, Provincial and
Municipal revenues from this traffic
is less than twenty millions. That
is to gain one dollar we spend ten
and do untold damage to the peo-
ple. No wonder Russia can finance
the great war without great distress
to her people.

The fact is that nearly every one
is poorer than he would be otherwise
because of the liquor traffic. I am
quite satisfied that our taxes could
be lowered from 30 to 50 per cent
if we were rid of this immense tax
maker. I can give the names of a
large number of towns and cities
that have lowered their tax rate af-
ter prohibition. Kansas City saved
three hundred thousand dollars a
year by closing the drinking places.

H. Arnott, MB., M.C.P.S.

SELECTION OF SEED POTATOES.

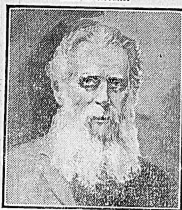

Of all the factors in potato grow-
ing, selection of seed is by far the
most important. Had we bred our
short-horn cattle as many of us have
been in the habit of selecting and
breeding our seed potatoes, we
would now have no breed of short-
horns. If we used only the culls
and scrubs to breed from, our breed
of stock would soon run out. It has
been careful selection and the appli-
cation of scientific principles of
breeding that has brought our pure
bred live stock up to the present
high standard. One reason why po-
tatoes on many farms in this country
have degenerated is that culls,
scrumbings and small potatoes have
been planted.

If no method of selection has hith-
erto been followed, the seed for this
year's crop will have to be taken
from the bin. Potatoes which are
of medium size, smooth, free from
disease and true to the type of the
variety being sown, should be se-
lected. During the late summer or
early autumn when the vines are be-
ginning to die down, the best and
most vigorous tubers should be se-
lected by putting down a small stake or
twig. The hills showing most vigor
of vegetation will usually give the
best yield of tubers. When the crop
is harvested any poor hills among
those marked should be discarded
and the rest saved for next year's
planting. One farmer doing illu-
stration work for the commission of
conservation planted potatoes so se-
lected and ordinary potatoes side
by side. When harvested, the rows
from the selected seed yielded ten
bushels per row, while the four rows
on either side of the ordinary seed
yielded seven and one half bushels
per row. This was a gain in yield
of 33 per cent.

This method of selection does not
take much time, and as repeated ex-
periments have shown it to be the
means of substantial increases in
yield, it should be more generally
practiced.—F.O.N.

A FAMILY REMEDY FOR MANY YEARS

Used "Fruit-a-lives" With The
Best of Results.

GEORGE MCKAY Esq.

KIPPER, Ont., June 17th, 1913.
"I have been using 'Fruit-a-lives'
as a family remedy for many years.
They are the best medicine I have
ever tried. 'Fruit-a-lives' do me
most good—they never gripe and their
action is pleasant."

"I have used them for Indigestion
and Constipation with the best results,
and I heartily recommend them to
anyone similarly afflicted.
These troubles have left me completely
and give 'Fruit-a-lives' full credit
for all this. A nice pill a man
cannot take."

GEORGE MCKAY.
The enormous demand for "Fruit-
a-lives" is steadily increasing, due to
the fact that this wonderful fruit medicine
gives prompt relief in all cases of
Indigestion, Constipation, Sour
Stomach, Rheumatism, Chronic
Headaches, and Neuralgia, and all
Kidney and Bladder Troubles.
See a box, 6 for \$2.50, trial size 50c.
Sold by all dealers or sent on receipt of
price by Fruit-a-lives Limited, Ottawa.

WHY BOYS LEAVE THE FARM

Goodbye, old farm, I'm going to
town.

I'm on my way right now;
I've curried the last pony down,
And milked my final cow.
For me they needn't set the alarm,
To ring before it's day.
For I have said "So long, old farm!"
And now I'm on my way.

There ain't no livin' here no more.
"Good Times" has spoiled it all.
Prosperity has got me here,
And filled my life with gall.
The price of hogs is no immense,
We can't kill none for meat.
Since eggs have gone to twenty cents
We can't have none to eat.

Dad's bought another farm, that's
how
He comes to feel so poor.
We mustn't eat any better now.
We can't use cream no more.
Jones paid that last five hundred
note.

He married often Dad,
Now Ma can't have a new fur coat
The old man feels so bad.

Won't get that interest any more,
Is what Dad groaned today.
And there's that note of Billy Gore,
He, too, is going to pay.
Of fifty pigs that hogged last fall,
There's twenty of 'em died,
So I can't buy a Ford that's all.
To take my gal to ride.

Dad's bought machinery every year.
Since eighteen ninety four.
The cost of stock and rumm'n' gear,
That's what is giving him a scare.
The city's voice is sounding sweet,
I'm going — what's the harm,
I'm going where folks dare to eat.
The products of the farm.

Jas. Madden, Wetaskiwin.

A very pretty wedding was solemn-
ized by the Rev. C. J. Bailey, of
the Canmore Methodist church, at
the home of Mr. and Mrs. H. C.
McNary, Bittern Lake, when their
daughter Elva was united in mar-
riage to Mr. Henry Carson of High-
enden. Miss M. Leri of Canmore ac-
ted as bridesmaid and Mr. Elmer Mc
Nary supported the groom. The hap-
py couple will spend a few days at
Edmonton, after which they will
take up their new home at High-
enden—Canadian.

Jan. Scott had the misfortune to lose his barn and many valuable tools on Thursday afternoon last. The fire, which is of unknown origin, had gained considerable headway before the alarm was given, and the brigade confined their efforts to saving adjoining property. No less than 2500 feet of hose was laid to fight the fire. The loss to Mr. Scott is about \$600, with \$125 insurance. Mr. Scott will rebuild the barn at once.

A most enjoyable time was spent at the home of Rev. Fr. Van Weten on Thursday evening last when a number of friends assembled to congratulate him on the 25th anniversary of his entering the priesthood. The Father gave them a hearty welcome, and a number of eulogistic addresses were made during the evening and games played. Father Van Weten was also the recipient of several suitable gifts. The Father's host of friends here he will be privileged to live many years yet in the city and district, as "He's a Jolly Good Fellow" and everything which has for the betterment of the community has received his endorsement and assistance. We join in extending our congratulations.
